

How to use TOGETHER

There are many ways for pastors and parish leaders to use the resources of TOGETHER to catechize and encourage the faithful to return to in-person worship.

Use these resources in any way and at any time that works for your parish or school community.

Suggestions:

- Pick 5 weeks and focus on **a different theme each week** using all the resources available in different areas of parish life (bulletin, social media, online gatherings, preaching, and more!)
- Preach a 5-week **homily series** – one on each theme – and reinforce the concepts using the talking points in religious ed and religion class, articles and discussion questions in the bulletin, and social media posts each day throughout the week.
- Host a 5-week Zoom **discussion group** for adult/teen faith formation. Invite people to read the *Catholic Telegraph* article and source quotes, then in the discussion group someone walks through the talking points and use the discussion prompts.
- Do a 5-week **social media** campaign using a post each day of the week from a given theme and/or a **bulletin series** posting a thematic article each week followed by discussion questions.
- In your **weekly staff meeting or monthly council/committee meeting**, pick a different theme each week, read and reflect upon the source quotations and then discuss using the prompts.
- Invite **parish groups** that meet regularly to use this material for their opening faith formation and discussion.

**Or any combination of the above!
Mix and match the resources in any way that works best for you.**
