# GRANT REPORTING

The Coronavirus grants will require reporting (CRF, BroadBand, EANS)

Schools agreed to reporting requirements when accepting the 'assurances' of the grant

Reporting is done quarterly, typically Jan-Mar, April-June, July-September, October-December

Who must complete grant reporting? *(Use unique code included with reporting email)*

- Any school that has accepted the money
- Includes any school that has already been reimbursed some/all of the CRF grant funds
- Includes any school that is still working on DUNS/SAM, but has not yet received funds

What must be reported?

- Report any funds 'used' during current period – include amounts and categories – enter zeroes in columns if you did not use any funds during current period
- If you have not yet set up funding or have already used all the funds, then enter zeroes

# EANS UPDATE - MARCH 26, 2021

Final Allocations expected in early April – we are ‘on hold’ awaiting contact from ESCs

US Department of Education provided [Updated FAQ](#) on March 19

Updated FAQ contains changes from previous guidance (section D – beginning page 16)

- 
- Clarifies cleaning supplies are eligible but NOT cleaning services
  - Clarifies that preschools connected to a nonpublic school are eligible for EANS
  - Clarifies use of EANS for staffing – cannot be used for normal teacher payroll – must be a part of targeted and specific program to address learning loss – will require some type of contract over and above the teacher-minister contract – clearly must be secular role  
*An SEA may provide services or assistance directly to non-public schools or it may contract with an individual, association, agency (e.g., an LEA), or organization (3<sup>rd</sup> party vendor) to provide such services or assistance.*

## EANS UPDATE - MARCH 26, 2021

Thank you for forwarding me your budget requests as you were able.

I am compiling a list of requests from schools in each category – this list will be ready once the final allocations are complete and the ESCs come on board – it should help you in knowing how other schools are creatively and efficiently using EANS funding

---

For schools that have not completed DUNS/SAM...no worries! You will not need it in order to get EANS.

There is strong belief that [EANS2](#) is on the horizon.....

# ED CHOICE UPDATE

SB 89 passed 2020

Expansion language increases eligibility to 250% of poverty level – increases number of available Expansion scholarships

---

Traditional language caused some confusion and surprise – SB 89 focused on list of eligible public schools – initial guidance released on March 2 – excluded nonpublic students from first time eligibility of traditional scholarships – revised guidance released on March 19 includes revision to include section five from SB 89 – first time Traditional eligibility for current nonpublic students under specific conditions, including limited sibling provision – high school ‘bridge’ language removed allowing 9<sup>th</sup> graders first time eligibility to for high school
