Cucumber Basil Mocktail

1 serving

5 minutes

Ingredients

- ½ cup chipped english cucumber
- 3 medium basil leaves
- 2 tsp lemon juice
- 1 tsp agave nectar (*or simple syrup*)
- ¾ cup club soda
- Ice
- Basil leaves and lemon slices, for garnish

Instructions

1. Combine cucumber, basil leaves and lemon juice in a cocktail shaker. Use a muddler or a wooden spoon to break up the cucumber. It will release a lot of juice. See note!
2. Strain the muddle mixture into a 12-16 ounce glass. Use the back of a spoon to press the cucumber and basil to extract all the liquid.
3. Add agave nectar and club soda to the glass and stir. Add ice, top with additional garnishes and serve!

Notes: The cucumber and basil flavor comes from muddling them in the first step, so take your time and get that flavor out! You will be surprised at how much liquid comes out of a cucumber.
